

New App, New Experience

DreamCatcher Life

One App Includes All-In-One Control

DreamCatcher Life is an app that can remotely control a variety of wireless smart devices. Through a simple and fast network connection, you can remotely manage and control various smart devices at home. There are multiple preset one-tap scenes in the app, and users can also customize more automation rules to create a safe and worry-free smart home life.

Remote Control

**In-app control and system settings
on your phone anywhere, anytime**

Instant Notifications

DreamCatcher Life

now

Bedroom Window Sensor Triggered Alarm

**Instant app push notifications
of triggered events**

Video Recording

Record a video clip when movement is detected, on microSD™ card or secured cloud

Monitoring

**Keep an eye on your loved ones
or property with full HD live video**

Simultaneously view multiple cameras installed in different rooms or at different locations

Switch on/off multiple or all lights in a group

Easily change the scene with one tap according to your mood

Tune your lights to match any scenes you want

Home Mode: When you arrive home, tap Home Mode, your security system will be set to Home Mode, the lights will be turned on, and the cameras will be turned off to protect your privacy.

Sleep Mode: When you go to bed, tap Sleep Mode, your security system will be set to Home Mode, the lights will be turned off, and the cameras will be turned on to keep guard for you.

Away Mode: When you leave home, tap Away Mode, your security system will be set to Arm Mode, the lights will be turned off to save power, and the cameras will be turned on to keep guard for you.

Compatible Accessories

Door/Window Sensor DWC-102

Detects for openings of any door/window/drawer and alerts; indoor use only

Pet-Immune PIR Motion Detector PIR-910

Detects for human motion while allowing your pet (under 25kg / 55lb) to move about in the house with complete freedom; indoor use only

Remote Control RC-80

Easy to carry around on a keychain or in your pocket or purse, the RC-80 helps you quickly arm or disarm your alarm system within range, and comes with an SOS panic button

Water Flood Detector WI-210

Alerts when liquid is detected; indoor use only

Vibration Detector WD-80

Alerts when vibration is detected; indoor use only

Glass Break Detector GT-126

Alerts when the sound of glass breaking is detected; indoor use only

Smoke Detector (10-Year) SMK-205

Sounds built-in siren and alerts when smoke is detected; indoor use only

Panic Button SOS-100

Sends emergency alert when the SOS button is pressed

Wireless Keypad KP-700

Arms/Disarms/Home Arms your alarm system with your pin combination; indoor use only

Indoor Mini Strobe Siren WS-105

Deters any would-be intruders with a 90dB siren sound and rapid flashes; indoor use only

Outdoor Wireless Strobe Siren WS-280

Deters any would-be intruders with a loud 105dB siren sound and rapid flashes; weatherproof design for outdoor use

Solar-Powered Siren SPS-260

Deters any would-be intruders with a loud 110dB siren sound and rapid flashes. The SPS-260 is an outdoor-rated, solar-powered siren, completely free of wires

Wireless Signal Repeater RT-101

Effectively enhances wireless radio signals for longer transmission distance; indoor use only

Solar-Powered Dual-Tech Motion Detector PIR-926

The PIR-926 accurately detects for human body movements and effectively cuts down on interference and false alarms with dual-mode detection: infrared and microwave. The solar panel and waterproof housing make the PIR-926 ideal for outdoor use

Multi-Beam IR Sensors AID-420

Detects for intruders walking through the invisible infrared beams between the two sensors; can be up to 6m / 20 ft apart; outdoor-rated
