

ZE1
Wireless Switch

When an emergency occurs, press the wireless switch to call for help through the gateway. The gateway alarms locally and pushes the message to the user APP. The button can be used as a smart switch to realize device linkage.

One-click alarm

Click the alarm button to trigger an emergency call

Flexible placement

Small and flexible, stick and use

Alarm message push

When an alarm occurs, the phone will also receive a message push.

Low battery reminder

When the battery is too low, the device reports a prompt message

Smart scene linkage

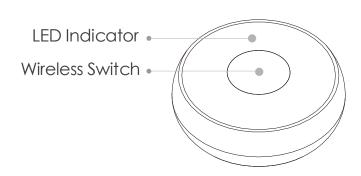

Interconnect with other smart home devices, such as IPC and light bulbs.

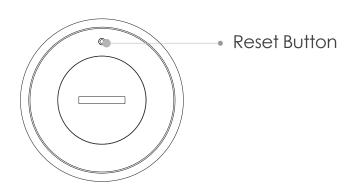

Long standby

Low-power design allows the device to work for over a year

Overview

Specifications

General

Appearance size: Φ50x16mm Working voltage: DC 3V Standby current: ≤10uA Working current: ≤30mA Low pressure alarm: $2.6 \pm 0.2V$ Operatign temperature: -14°F to+131°F Battery life: > 1 year(20 times/day)

Network

Wireless protocol: Zigbee Transmit frequency: 2.4GHz Transmit power: ≤15dBm Communication distance: 200m

What's in the box

- 1x Wireless Switch
- 1x 3M Sticker
- 1x Card Needle

- 1x Rounded Pick
- 1x Quick Start Guide
