

SmartLogos30M

(IN098)

Voice board for SmartLiving control panels

The voice board SmartLogos30M (IN098) attached to this leaflet is for SmartLiving **3.01** (or later) control panels only.

If this SmartLogo30M (IN098) is installed in a 3.00 or above control panel, it is necessary to upgrade the firmware to version 3.01 of the control panel (or later). The update software is included in the CD attached to the voice board or you can download it from INIM web site www.inim.biz.

The firmware version 3.01 (or later) is compatible with this voice board, SmartLogos30M (IN098), and with the SmartLogos30M voice board with IN026 hardware code.

The two SmartLogos30M voice boards have the same functions and capabilities, except for the space available for voice memo slots:

- **IN026**: 60 seconds
- **IN098**: 8 seconds

Instructions

Software from MiniCD

SmartLogos30M is provided with a MiniCD with the following contents:

- **SmartLeague** version 3.2.0: programming and control software for INIM control panels
- **living_update_ita_301.exe**: software for firmware upgrading to version 3.01, italian language
- **living_update_eng_301.exe**: software for firmware upgrading to version 3.01, english language

The firmware update procedure is as follows:

1. Insert the MiniCD
2. Launch the "living_update_eng_301.exe" software
3. Read the instructions provided by the software during the startup

Insert the voice board when the control panel is not powered.

ATTENTION!

Down below there is a table showing the maximum upgrade limit of the firmware for each control panel model, depending on the hardware code, and the model of SmartLogos30M compatible with the version of firmware.

You should check the firmware version and the date of production of your control panel by means of the labels fixed onto the main board.

Control panel	Hardware code	Maximum firmware upgrade	SmartLogos30M	
			IN026	IN098
SmartLiving505	IN024	2.11	YES	NO
	IN061	2.11	YES	NO
	IN082	3.01	YES	YES
SmartLiving515	IN024	2.11	YES	NO
	IN061	2.11	YES	NO
	IN082	3.01	YES	YES
SmartLiving1050	IN025 - manufactured before December 2008	2.11	YES	NO
	IN025 - manufactured from December 2008	3.01	YES	YES
	IN088	3.01	YES	YES
SmartLiving10100	any	3.01	YES	YES

Software from www.inim.biz

You can download from the web-site www.inim.biz the software **living_update_eng_301_full.exe**; by means of this software you can upgrade all SmartLiving control panels, with no matter for the model or version, in order to be compatible with SmartLogos30M (IN098) voice board.
