

Transmitter

Module for third-party detector integration

Wireless module for connecting third-party detectors (i.e. IR barriers, liquid level detectors, gas detectors, and thermal relays) to the Ajax security system.

Maximum Performance

- Communicates at a distance of up to 1,600 m from the hub
- Compatible with detectors featuring NC/NO outputs
- Delivers an alarm signal within 0.15 s
- Operates up to 5 years on the pre-installed batteries
- Provides 3.3 V power supply for connected device

Simple Installation

Use the QR code to connect the device to the hub

Open the app to test connection quality and configure device settings

Install the device into the detector's body or a mounting box

Bulletproof Protection

Tampering and accelerometer alarm

Data encryption

6	

Device forgery prevention

Effortless Operation

- Suitable for indoor and outdoor operation
- Indicates battery level in the app
- Two-way communication with the hub for testing and configuring

Tech Specs

- Installation: indoors/outdoors
- Compatibility: all hubs & ReX
- Radio communication range: up to 1,600 m
- Alarm input: 1
- Tamper input: 1
- Battery: 3x CR123A batteries, pre-installed
- Detector contact type: NO/NC
- Terminals: power supply (+/-), alarm, tamper
- Power supply output: 3.3 V
- Battery life: up to 5 years
- Operating temperature range: from -25°C to +50°C
- Permissible humidity: up to 75%
- Dimensions: 100×39×22 mm
- Weight: 74 g
