

Electronic Safes

Yale Electronic Safes provide you with a good level of security for those precious items you need more regularly, such as keys, passports, cash and cards.

Each safe is accessed via an easy to set three to eight digit PIN. Two keys are also supplied, in case of a forgotten PIN.

The safe features a two stage time lock that first activates for 20 seconds if incorrect PIN is entered 3 times and after a further 3 incorrect codes it then locks down for 5 minutes.

The safes come in a variety of sizes from mini to laptop variants, allowing you to choose a safe that best suits your needs.

Suitable for:

Jewellery

Watches

Important Documents

Passports

Smart Devices

Keys

Laptop

Camera

- Electronic lock with handle for easy opening
- 3 to 8 digit PIN code access
- Automatic lockdown: 2 Stage time lock activates for 20 seconds if incorrect code is entered 3 times, after a further 3 incorrect codes it then locks down for 5 minutes
- Easy one-touch PIN reset button inside the safe
- Locking mechanism: Anti-bump solenoid (prevents 'bump opening')
- Mechanical override - two radial keys supplied to open the safe in case of a forgotten PIN
- Simple LED light status indicators

Trusted every day
