YZU-A

ANGLED CEILING BRACKET

Features

- ▶ Easy to install
- ▶ Allows Hochiki devices to be angled
- ▶ Robust design
- ▶ Can be used for both fire detection and emergency lighting units.

(shown with mounting base fitted – sold separately)

Description

The YZU-A is an angled ceiling bracket which allows any Hochiki device, which uses a standard mounting base, to be ceiling mounted at an angle. The bracket is adjustable to any angle and colour matches the ivory product range.
