Power

On: Power on
Off: Power off

FAN

On: The fans are working properly.
**Off:** The fans are working abnormally.

Installation

Remove the protective cover on the power supply module slot of TL-MC1400. Then gently push in the module and plug it solidly into the connector.

Chassis

Power On

Plug the negative connector of the AC power cord into the power socket of TL-MCRP100, and the positive connector into a power outlet as the following figure shows. After TL-MCRP100 is powered on normally, the Power LED and FAN LED indicators on its front panel will keep on.
Note: TL-MCRP100 v2.0 supports TL-MC1400 v3.0, while TL-MCRP100 v1.0 supports TL-MC1400 v1.0/2.0.
