Product Overview

LEDs	Status	Description
Power	On	Power supply is provided to the device properly.
Power	Off	Power supply is not provided to the device properly.
Solid	On	Indicates the corresponding port is connected.
Blinking	On	Indicates no connection is established. Indicates the corresponding port is connected and transferring data.

Power input Ports: 1-5

Panoramica del prodotto

LED	Stato	Descrizione
Alimentazione	Spento	L'alimentazione per il dispositivo è limitata costantemente.
Alimentazione	Solido	L'alimentazione per il dispositivo non è limitata costantemente.
Spento	Spento	Indica che la porta corrispondente è scollegata.
Lampadina lampeggiante	Spento	Indica che nessuna connessione è stabilita.
Lampadina lampeggiante	Spento	Indica che la porta corrispondente è scollegata e sta trasferendo dati.

This is a Class B digital device, pursuant to part 15 of the FCC Rules. This device may cause radio interference, in which case the user may be required to take adequate measures.

Caution: Adapter Model: TEA13E-05060, \pm 5% DC Voltage
Manufacturer: SHENZHEN HEWEISHUN NETWORK TECHNOLOGY Co., LTD
Input: AC 100-240V 50/60Hz 0.3A, Output: 5Vdc, 500mA

RECYCLING
This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). The means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment.

Operating Temperature: 0°C ~ 40°C	Relative Humidity: 10% ~ 90% RH non-condensing
Storage Temperature: -40°C ~ 70°C	Storage Humidity: 10% ~ 90% RH non-condensing
