## Connection

## Frequently Asked Questions (FAQ)

## Q1. The Power LED is not lit.

The Power LED should be lit when the power system is working normally. If the Power LED is not lit, please check as follows:

A1: Make sure the power adapter is connected to the switch with power source properly.
A2: Make sure the voltage of the power supply meets the requirements of the input voltage of the switch.
A3: Make sure the power source is ON.

## Q2. The Link/Act LED is not lit when a device is connected to the corresponding port.

It is recommended that you check the following items:
A1: Make sure that the cable connectors are firmly plugged into the switch and the device.

A2: Make sure the connected device is turned on and works normally.
A3: The cable must be less than 100 meters long (328 feet).

| Operating Humidity | $10 \%$ to $90 \% \mathrm{RH}$ non-condensing |
| Storage Humidity | $5 \%$ to $95 \% \mathrm{RH}$ non-condensing |

## Safety Information

Keep the device away from water, fire, humidity or hot environments.
Do not attempt to disassemble, repair, or modify the device.
Do not use damaged charger or USB cable to charge the device.

- Do not use any other chargers than those recommended.
- Adapter shall be installed near the equipment and shall be easily accessible.
- 1 Use only power supplies which are provided by manufacturer and in the origin packing of this product.

C $\epsilon_{\text {ce mark Waning }}$
This is a class B product. In a domestic environment, this product may cause radio interference, in which case the use may be required to take adequate measures.

FE $\mathbb{C}_{\text {fccstatement }}$
俍 FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee hat interference will not occur in a particular installation.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
) This device may not cause harmful interference.
) This device must accept any interference received, including interference that may cause undesired operation Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## EU declaration of conformity

TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directives 2014/30/EU, 2014/35/EU, 2009/125/EC and 201 1/65/EU.
