本设备需要连接SONOFF 433MHz RF Bridge进行智能操作,可与其他产品互联互通。

ⓘ 设备支持其他无线协议为433MHz的网关,具体以实际产品为准。

使用说明

1. 下载“易微联”APP

2. 安装电池

2-1. 打开发射器后盖

2-2. 根据正负极标识,装上电池

2-3. 合上后盖

ⓘ 电池需另行购买。

3. 添加子设备

添加子设备前, 请先连接网关。

打开eWeLink APP, 选择要连接的网关, 点击“添加”选择报警器, 听到“滴”网关进入配对模式, 然后将“发射器”和“磁铁”分离大于20mm直到LED指示灯长亮1-2秒, 听到网关发出“滴滴”两声, 即添加完成。

⊙ 如添加失败, 请将设备移近网关后再重新添加。

安装设备

1. 撕下3M胶保护膜。

2. 安装时发射器和磁铁上的安装对位标识尽量对齐。

3. 分别粘贴在所需开合区域。

发射器和磁铁安装间隙门窗在闭合状态下小于5mm。

产品参数

产品型号	DW2-RF
RF	433MHz
工作电压	DC3V(2节1.5V电池)
电池型号	AAA(7号 1.5V)
静态电流	≤6uA
发射电流	≤10mA
无线发射距离	最大50米
安装距离	<5mm
工作温度	-10°C~40°C
材料	PC
产品尺寸	发射器: 70x31x19mm 磁铁: 42x14x16mm

产品介绍

⚠ 设备重量<1Kg,建议安装高度<2米。

产品特点

DW2-RF是一款低功耗的无线门窗传感器，通过发射器与磁铁的靠近与分开感知门窗开启状态，通过添加场景联动设置控制其它设备。

低功耗

报警记录查询

场景联动

使用场景

注意事项：

- 请勿安装在户外容易被破坏的位置；
- 请勿安装在基础不牢固或有雨淋的位置；
- 请勿安装在线路旁或磁性物体附近；

更换电池

拆下外壳

取出电池

The device can be operated intelligently via working with the SONOFF 433MHz RF Bridge to communicate with other devices.

ⓘ The device can work with other gateways supporting 433MHz wireless protocol. Detailed information is in accordance with the final product.

Operation instruction

1. Download APP

Android™ & iOS

2. Install batteries

2-1. Remove the back cover of the transmitter.

2-2. Insert batteries into the battery compartment based on identifiers of positive and negative poles.

2-3. Close the back cover.

ⓘ The battery is not included, please purchase it separately.

3. Add sub-devices

Connect the Bridge before adding the sub-device.

Access the eWeLink APP and select the Bridge, tap "Add" to select the alarm, and a "Beep" means the Bridge enters the pairing mode. Then separate the magnet for more than 20 mm from the transmitter until the LED indicator stays on for 1 to 2s, and the pairing is complete when you hear "Beep Beep".

ⓘ If the addition failed, move the sub-device closer to the Bridge and try again.

Install the device

1. Tear off the protective film of the 3M adhesive.

2. Try to align the mark line on the magnet with that on the transmitter during installation.

3. Install them in the opening and closing area separately.

Make sure the installation gap is less than 5mm when the door or the window is closed.

Specifications

Model	DW2-RF
RF	433MHz
Working voltage	DC3V (2 x 1.5V battery)
Battery model	AAA 1.5V
Quiescent current	$\leq 6\mu\text{A}$
Emission current	$\leq 10\text{mA}$
Wireless transmission distance	Max. 50m
Installation gap	<5mm
Working temperature	-10°C~40°C
Material	PC
Dimension	Transmitter: 70x31x19mm Magnet: 42x14x16mm

Product Introduction

The device weight is less than 1 kg.
The installation height of less than 2 m is recommended.

Features

DW2-RF is a low-energy wireless door/window sensor that makes you know the opening status of door and window by separating the magnet from the transmitter. Connect it with the Bridge and you can create a smart scene to trigger other devices.

Low-energy

Alarm recordings check

Smart scene

Application

Note:

- Do not install outside the door/window.
- Do not install in the unstable position or in the place exposed to rain or moisture.
- Do not install near wiring or magnetic object.

Replace batteries

Das Gerät kann intelligent betrieben werden, indem man mit dem SONOFF 433MHz HF Gateway arbeitet, um mit anderen Geräten zu kommunizieren.

ⓘ Das Gerät kann mit anderen Gateways zusammenarbeiten, die das drahtlose 433MHz-Protokoll unterstützen. Detaillierte Informationen sind in Übereinstimmung mit dem Endprodukt.

Betriebsanleitung

1. APP herunterladen

Android™ & iOS

2. Batterien einbauen

2-1. Entfernen Sie die Rückwand des Senders.

2-2. Batterien in das Batteriefach einlegen anhand der Kennzeichnung der Plus- und Minuspole.

2-3. Schließen Sie die Rückabdeckung.

ⓘ Die Batterie ist nicht im Lieferumfang enthalten, bitte kaufen Sie sie separat.

3. Untergeräte hinzufügen

Schließen Sie das Gateway an, bevor Sie das Untergerät hinzufügen.

Rufen Sie die eWeLink APP auf und wählen Sie die Gateway, tippen Sie auf „Hinzufügen“, um den Alarm auszuwählen, und ein „Beep“ bedeutet, dass die Gateway in den Kopplungsmodus wechselt. Trennen Sie dann den Magneten mehr als 20 mm vom Sender, bis die LED-Anzeige 1 bis 2 Sekunden lang leuchtet. Die Kopplung ist abgeschlossen, wenn Sie „Beep Beep“ hören.

⚠ Wenn das Hinzufügen fehlgeschlagen ist, bewegen Sie das Untergerät näher an das Gateway und versuchen Sie es erneut.

Installieren Sie das Gerät

1. Die Schutzfolie des 3M-Klebstoffs abreißen.

2. Versuchen Sie die Markierungslinie auf dem Magneten bei der Montage mit der auf dem Sender auszurichten.

3. Installieren Sie sie im Öffnungs- und Schließbereich getrennt.

Achten Sie darauf, dass der Einbauspalt bei geschlossener Tür oder geschlossenem Fenster weniger als 5 mm beträgt.

Technische Daten

Modell	DW2-RF
HF	433MHz
Arbeitsspannung	DC 3 V (2 x 1,5 V-Batterie)
Batterie Modell	AAA 1,5 V
Ruhestrom	≤6μA
Emissionsstrom	≤10mA
Entfernung der drahtlosen Übertragung	Max. 50 m
Einbauspalt	<5mm
Arbeitstemperatur	-10°C~40°C
Materialien	PC
Abmessungen	Sender: 70x31x19mm Magnet: 42x14x16mm

Produktvorstellung

⚠ Das Gerätegewicht beträgt weniger als 1 kg.
Es wird eine Installationshöhe von weniger als 2 m empfohlen.

Merkmale

DW2-RF ist ein energiesparender drahtloser Tür-/Fenstersensor mit niedrigem Energieverbrauch, der Ihnen den Öffnungszustand von Tür und Fenster anzeigt, indem er den Magneten vom Sender trennt. Verbinden Sie ihn mit dem Gateway, und Sie können eine intelligente Szene erstellen, um andere Geräte auszulösen.

Niedrige Energie

Überprüfung der Alarmaufzeichnungen

Intelligente Szenarien

Anwendung

Hinweis:

- Nicht außerhalb der Tür / Fenster installieren.
- Nicht in einer instabilen Position oder an einem Ort installieren, an dem es Regen oder Feuchtigkeit ausgesetzt ist.
- Nicht in der Nähe von Leitungen oder magnetischen Objekten installieren.

Batterien austauschen

El dispositivo puede operarse de forma inteligente trabajando con el SONOFF de 433MHz RF puerta de enlace para comunicarse con otros dispositivos.

ⓘ El dispositivo puede trabajar con otras puertas de enlace que sean compatibles con el protocolo inalámbrico de 433MHz. La información detallada es conforme al producto final.

Instrucciones de funcionamiento

1. Descargar la aplicación

Android™ & iOS

2. Coloque las baterías

2-1. Quite la tapa trasera del transmisor.

2-2. Coloque las baterías dentro del compartimento de batería En función de los identificadores de polos positivos y negativos.

2-3. Cierre la tapa trasera.

ⓘ La batería no está incluido; por favor, cómprelo por separado.

3. Agregar subdispositivos

Conecte la puerta de enlace antes de agregar el subdispositivo.

Abra la aplicación eWeLink y seleccione el Puente, presione "Agregar" para seleccionar la alarma, y un sonido "Pip" significa que el Puente entra en el modo de emparejamiento. Luego, aleje el imán a unos 20 mm del transmisor hasta que el indicador LED se mantenga encendido entre 1 y 2s. El emparejamiento se completará cuando escuche "Pip Pip".

⚠ Si se produce un error al agregar, mueva el subdispositivo más cerca de la puerta de enlace e inténtelo de nuevo.

Instale el dispositivo

1. Quite la lamina protectora del adhesivo 3M.

2. Intente alinear la línea del imán con la que se encuentra en el transmisor durante la instalación.

3. Instálelos por separado en el área de apertura y de cierre.

Asegúrese de que la brecha de instalación sea menor a 5mm cuando la puerta o ventana esté cerrada.

Especificaciones

Modelo	DW2-RF
RF	433MHz
Tensión de funcionamiento	DC3V (batería 2 x 1,5V)
Batería modelo	AAA 1,5V
Corriente estática	≤6uA
Corriente de emisión	≤10mA
Distancia de transmisión inalámbrica	Máx.50m
Brecha de instalación	<5mm
Temperatura de funcionamiento	-10°C~40°C
Materiales	PC
Dimensiones	Transmisor: 70x31x19mm Imán: 42x14x16mm

Introducción al producto

⚠ El peso del dispositivo es inferior a 1 kg.
Se recomienda una altura de instalación inferior a 2 m.

Características

El DW2-RF es un sensor inalámbrico de puertas / ventanas de baja energía que le hace saber el cierre de apertura de la puerta y ventana separando el imán del transmisor. Conéctelo con la puerta de enlace y puede crear una escena inteligente para habilitar otros dispositivos.

Baja energía

Verificación de las grabaciones de alarma

Escenas

Aplicación

Nota:

- No lo instale fuera de la puerta/ventana.
- No lo instale en superficies inestables o en lugares expuestos a la lluvia o la humedad.
- No lo instale cerca de objetos inalámbricos o magnéticos.

Cambie las baterías

L'appareil peut être utilisé de manière intelligente en travaillant avec la passerelle SONOFF 433MHz FR pour communiquer avec d'autres appareils.

ⓘ Le dispositif peut fonctionner avec d'autres passerelles prenant en charge le protocole sans fil 433MHz. Les informations détaillées sont conformes au produit final.

Instruction d'opération

1. Télécharger l'application

Android™ & iOS

2. Installer les piles

2-1. Retirer le couvercle arrière de l'émetteur.

2-2. Insérer les piles dans le compartiment à piles en fonction des identificateurs des pôles positif et négatif.

2-3. Fermer le couvercle arrière.

ⓘ La batterie n'est pas incluse, veuillez l'acheter séparément.

3. Ajouter des sous-appareils

Connecter la passerelle avant d'ajouter le sous-dispositif.

Accédez à eWeLink APP et sélectionnez le Passerelle, appuyez sur « Ajouter » pour sélectionner l'alarme, et lorsque vous entendez un « Bip », cela signifie que le Passerelle entre en mode de couplage. Séparez ensuite l'aimant pendant plus de 20 mm de l'émetteur jusqu'à ce que le voyant LED reste allumé pendant 1 à 2 s, et le couplage est terminé lorsque vous entendez « Bip Bip ».

⚠ Si se produce un error al agregar, mueva el subdispositivo más cerca de la puerta de enlace e inténtelo de nuevo.

Installer l'appareil

1. Déchirer le film protecteur de l'adhésif 3M.

2. Essayer d'aligner la ligne de repère sur l'aimant avec celle du l'émetteur lors du montage.

3. Les installer séparément dans la zone d'ouverture et de fermeture.

S'assurer que l'espace d'installation est inférieur à 5 mm lorsque la porte ou la fenêtre est fermée.

Caractéristiques techniques

Modèle	DW2-RF
FR	433MHz
Tension de service	DC3V (batterie 2 x 1,5V)
Batterie modèle	AAA 1,5 V
Courant de repos	≤6uA
Courant d'émission	≤10mA
Distance de transmission sans fil	Max.50m
Espace d'installation	<5mm
Température de travail	-10°C~40°C
Matériaux	PC
Dimensions	Emetteur: 70x31x19 mm Aimant: 42x14x16 mm

Présentation du produit

- ⚠ Le poids du dispositif est inférieur à 1 kg.
Il est recommandé d'installer le dispositif à une hauteur inférieure à 2 m.

Caractéristiques

DW2-RF est un capteur de porte/fenêtre sans fil à faible consommation d'énergie qui vous permet de connaître l'état d'ouverture des portes et fenêtres en séparant l'aimant de l'émetteur. Connectez-le avec la passerelle et vous pouvez créer une scène intelligente pour déclencher d'autres appareils.

Faible consommation

Vérification des enregistrements d'alarme

Scènes intelligentes

Application

Remarque:

- Ne pas installer à l'extérieur de la porte/fenêtre.
- Ne pas installer dans la position instable ou dans l'endroit exposé à la pluie ou à l'humidité.
- Ne pas installer près du câblage ou objet magnétique.

Remplacer les piles

Il dispositivo può essere azionato in modo intelligente attraverso SONOFF 433MHz RF Gateway per comunicare con altri dispositivi.

ⓘ Il dispositivo può essere utilizzato con altri gateway che supportano il protocollo wireless 433MHz. Le informazioni dettagliate sono conformi al prodotto finale.

Istruzioni per l'uso

1. Scarica la APP

Android™ & iOS

2. Installazione delle batterie

2-1. Rimuovere il coperchio posteriore del trasmettitore.

2-2. Inserire le batterie nel vano batterie in base agli indicatori dei poli positivo e negativo.

2-3. Chiudere il coperchio posteriore.

ⓘ La batteria non è incluso, si prega di acquistarlo separatamente.

3. Aggiungere sotto-dispositivi

Collegare il Gateway prima di aggiungere il sotto-dispositivo.

Accedere all'APP eWeLink e selezionare il Gateway, premere "Add" per selezionare l'allarme; quando il Gateway entra nella modalità di associazione, emetterà un segnale sonoro "Bip". Separare quindi il magnete per più di 20 mm dal trasmettitore fino a quando l'indicatore LED rimane acceso per 1 o 2s; l'associazione sarà completata quando il dispositivo emetterà un segnale sonoro per due volte "Bip Bip".

⚠ Se l'operazione di associazione non dovesse andare a buon fine, avvicinare il sotto-dispositivo al Gateway e riprovare.

Installazione del dispositivo

1. Rimuovere la pellicola protettiva dell'adesivo 3M.

2. Cercare di allineare la linea di riferimento sul magnete con quella del trasmettitore, durante l'installazione.

3. Installarli separatamente nell'area di apertura e di chiusura.

assicurarsi che la distanza di installazione sia inferiore a 5 mm quando la porta o la finestra sono chiuse.

Specifiche

Modello	DW2-RF
RF	433MHz
Tensione di funzionamento	DC3V (2 batterie da 1,5V)
Batteria modello	AAA 1,5 V
Corrente di riposo	$\leq 6\mu\text{A}$
Corrente emessa	$\leq 10\text{mA}$
Distanza di trasmissione wireless	Max. 50m
Distanza di installazione	$< 5\text{mm}$
Temperatura di funzionamento	$-10^{\circ}\text{C} - 40^{\circ}\text{C}$
Materiale	PC
Dimensioni	Trasmettitore: 70x31x19 mm Magnete: 42x14x16 mm

Introduzione al prodotto

ⓘ Il peso del dispositivo è inferiore a 1 kg.
Si raccomanda un'altezza di installazione inferiore a 2 m.

Caratteristiche

DW2-RF è un sensore wireless a basso consumo energetico per porte/finestre che consente di conoscere lo stato di apertura di porte e finestre attraverso la separazione del magnete dal trasmettitore. Collegatelo con il Gateway e potrete creare una scenografia intelligente per attivare altri dispositivi.

Basso consumo energetico

Verifica registrazione allarmi

Scene intelligenti

Applicazione

Nota:

- Non installare all'esterno della porta/finestra.
- Non installare in condizioni instabili o in luoghi esposti alla pioggia o all'umidità.
- Non installare in prossimità di cavi od oggetti magnetici.

Sostituire le batterie

Устройством можно управлять интеллектуально посредством шлюза SONOFF производства компании 433МГц РЧ для обмена данными с другими устройствами.

ⓘ Устройство может работать с другими шлюзами, поддерживающими беспроводной протокол 433МГц. Подробная информация соответствует характеристикам конечного изделия.

Инструкция по эксплуатации

1. Скачать приложение

Android™ & iOS

2. Установка батареек

2-1. Удалите заднюю крышку передатчика.

2-2. Вставьте батарейки в отсек для батареек учетом идентификаторов положительного и отрицательного полюсов.

2-3. Закройте заднюю крышку.

ⓘ Если Батарейка не входит в комплект, приобретите его отдельно.

3. Добавьте суб-устройства

Подключите шлюз перед добавлением суб-устройства.

Осуществите доступ к приложению eWeLink и выберите шлюз, коснитесь «Добавить», чтобы выбрать сигнал тревоги. «Зуммер» означает, что шлюз перешел в режим установки соединения. Затем отведите магнит на расстояние более 20 мм от передатчика до момента, когда LED все еще продолжает светиться в течение 1 или 2 секунд. Когда услышите повторяющийся «Зуммер», это означает, что установка соединения завершена.

⚠ Если добавление не удалось, переместите суб-устройство ближе к шлюзу и повторите попытку.

Установите устройство

1. Оторвите защитную пленку наклейки ЗМ.

2. Во время установки попытайтесь совместить линию отметки на магните с линией на передатчике.

3. Устанавливайте их в области открытия и закрытия отдельно.

зазор при установке должен быть менее 5 мм, когда закрыта дверь или окно.

Технические характеристики

Модель	DW2-RF
РЧ	433 МГц
Рабочее напряжение	3 В постоянного тока (2 батарейки x 1,5 В)
Модель батареек	AAA 1,5 V
Ток в рабочей точке	≤6μA
Ток эмиссии	≤10mA
Расстояние беспроводной передачи	Макс. 50 м
Установочный зазор	<5 мм
Рабочая температура	-10°C~40°C
Материалы	PC
Размеры	Передатчик: 70x31x19 мм Магнит: 42x14x16 мм

Знакомство с изделием

Вес устройства составляет менее 1 kg.

Рекомендуется устанавливать устройство на высоте менее 2 м.

Функции

DW2-RF — это беспроводной датчик двери/окна с низким потреблением энергии, сообщающий о состоянии открытия двери и окна посредством отделения магнита от передатчика. Подключив его к шлюзу, вы сможете создать интеллектуальную сцену для запуска других устройств.

Низкое энергопотребление

Проверка записей сигнала тревоги

Смарт-сюжеты

Применение

Примечание:

- Не устанавливайте снаружи двери/окна.
- Не устанавливайте в неустойчивом положении или в месте, подверженном воздействию дождя либо влаги.
- Не устанавливайте поблизости от проводки или предмета, обладающего магнитными свойствами.

Замена батареек

O dispositivo pode ser operado de maneira inteligente através do trabalho com o SONOFF 433MHz RF Bridge para se comunicar com outros dispositivos.

ⓘ O dispositivo pode funcionar com outras entradas que suportam o protocolo sem fio 433MHz. Informações detalhadas estão de acordo com o produto final.

Instrução de Operação

1. Baixe o APP

Android™ & iOS

2. Instale as baterias

2-1. Remova a tampa de trás do transmissor

2-2. Insira as baterias no lugar adequado identificando os polos positivos e os negativos.

2-3. Coloque a tampa de novo.

ⓘ A bateria não é incluso, por favor compre-o separadamente.

3. Adicionar sub-dispositivos

Conecte o Bridge antes de adicionar o sub-dispositivo.

Acesse o eWeLink APP e selecione o Bridge, toque em "Adicionar" para selecionar o alarme e um "Bipe" significa que a Bridge entra no modo de emparelhamento. Separe o ímã por mais de 20 mm do transmissor até que o indicador LED permaneça aceso por 1 a 2s e o emparelhamento esteja completo quando você ouvir "Bipe Bipe".

⚠ Se a adição falhar, mova o sub-dispositivo para mais perto do Bridge e tente novamente.

Instale o dispositivo

1. Retire o adesivo de proteção do 3M.

2. Tente alinhar a marca de linha do ímã com a do transmissor durante a instalação.

3. Instale-os na área de abertura e fechamento separadamente

Certifique-se de que o espaço da instalação, quando portas ou janelas estiverem fechadas, seja de pelo menos 5mm.

Parâmetros do produto

Modelo	DW2-RF
RF	433MHz
Tensão operacional	DC3V (2 x 1.5V battery)
Battery modelo	AAA 1.5V
Corrente estático	$\leq 6\mu\text{A}$
Corrente de emissão	$\leq 10\text{mA}$
Distância de transmissão sem fio	Max. 50 m
Distância de instalação	<5 mm
Temperatura de trabalho	-10°C~40°C
Material de revestimento	PC
Dimensão	Transmissor: 70x31x19 mm Magnético: 42x14x16 mm

Introdução ao produto

ⓘ O peso do dispositivo é inferior a 1 kg.
Recomenda-se uma altura de instalação inferior a 2 m.

Funções

O DW2-RF é um sensor sem fio de porta / janela de baixo consumo, que faz você saber o status de abertura de porta e janela, separando o ímã do transmissor. Conecte-o ao Bridge e você poderá criar uma cena inteligente para acionar outros dispositivos.

Baixo consumo

Verificação de gravações de alarme

Cenas inteligentes

Aplicação

Porta

Janela

Nota:

- Não instale fora da porta / janela.
- Não instale na posição instável ou em locais expostos à chuva ou umidade.
- Não instale próximo a fiação ou objeto magnético.

Substituição da bateria

FCC Warning

Changes or modifications not expressly approved by the party responsible for compliance could avoid the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Hereby, Shenzhen Sonoff Technologies Co., Ltd. declares that the radio equipment type DW2-RF is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
